

SPRINT 1 REPORT

Product Name: tabspace
Team Name: team tabspace
Date: October 19, 2016

Actions to stop doing

1. The team should stop holding the third sprint meeting on Thursdays, since we have the second meeting on Wednesdays, since no one would be able to do a sufficient amount of work that can be discussed. To be more effective, we will hold our third spring meeting on Fridays at 11:45am.
2. The team should be more accurate at estimating work tasks, since tasks were under-estimated during the first sprint.

Actions to start doing

1. The team should try to schedule more group work sessions, since it is more productive to work together.

Actions to keep doing

1. The team should continue to hold efficient scrum meetings, since we usually finish before our 15 minutes is up.
2. The team should continue pushing to git.
3. The team should continue communicating over Slack.

Work Completed/Not Completed

Completed:

1. Block pre-selected sites from specified tabspaces.
2. Build a simple menu to move between tabspaces. Options include: a) opening a tabspace in a new window, b) closing current tabspace and open selected tabspace.

Not Completed:

1. Save tabs into one group and be able to open a tabspace into a new window.
2. Add categories to the tabspace menu to save several tabspaces under one folder.

Work Completion Rate

Total # of user stories completed during: 2

Total # of estimated ideal work hours completed: 28 expected, 33.5 completed

Total # of days during sprint: 15 days

User stories/day: $2/15 = 0.13$

Ideal work hours/day: $33.5/15 = 2.23$

Final Burnup Chart:
