

SPRINT 1 PLAN

Product Name: tabspace

Team Name: team tabspace

Sprint Completion Date: October 19, 2016

Revision Number: 1

Revision Date: October 5, 2016

Goal

Build foundation for tabspace:

1. Be able to save tabs into one group.
2. Be able to move between multiple groups of tabs (also called *tabspaces*).
3. Be able to block sites from tabspaces based on user preference.
4. Build basic UI and mockup for future UI.

Task Listing

User Story 1

As a student, I want to be able to tell my browser whether I'm doing schoolwork or socializing so that it can open only relevant tabs on startup and block certain sites accordingly, so that I can study more efficiently and be less distracted.

Task 1: Save tabs into one group and be able to open a tabspace into a new window.
(8 hours)

Task 2: Build a simple menu to move between tabspaces. Options include: a) opening a tabspace in a new window, b) closing current tabspace and open selected tabspace (6 hours)

Task 3: Block pre-selected sites from specified tabspaces. (6 hours)

TOTAL: 20 hours

User Story 2

As a worker, I want to be able to organize multiple work projects so that I can focus on one project at a time.

Task 1: Add categories to the tabspace menu to save several tabspaces under one folder.

(8 hours)

TOTAL: 4 hours
