SPRINT 3 PLAN

Product Name: tabspace
Team Name: team tabspace
Sprint Completion Date: November 23, 2016
Revision Number: 1
Revision Date: November 9, 2016

Goal

Complete and improve the foundation for tabspace:
1. Be able to sort tabspaces by name, most used tabspace, etc.
2. Be able to block websites with a tabspace.
3. Be able to display what current tabspace user is on
4. Be able to edit and delete tabspaces
5. Be able to set preference for tabspace to open in new window or current window
6. Be able to develop an intriguing, friendly UI
7. Integrate 'create tabspace with current tabs' button.

Task Listing

<u>User Story 1</u>

As a student, I want to be able to sort, edit, and delete my tabspaces as well as edit my window preference

> Task 1: Sort tabspace by name, most used, etc. (5 hours)
> Task 2: Edit existing tabspaces. (8 hours)
> Task 3: Delete existing tabspaces. (2 hours)
> Task 4: Edit window preference/ Set window preference (3 hours)
> Task 5: Integrate page blocking code (1 hour)
> **TOTAL: 18 hours**

<u>User Story 2</u>

As a tabspace user, I want to be able to use the tabspace plugin simply without instruction or frustrations
> Task 6: Style buttons (5 hours)
> Task 7: Add a library of landscape photos to be added as an icon (10 hours)
> **TOTAL: 15 hours**
