SPRINT 3 REPORT

Product Name: tabspace
Team Name: team tabspace
Date: November 20, 2016

Actions to stop doing

1. The team should stop having meetings on weekend mornings, because not everyone shows up
2. The team should stop pushing to different folders on git, because this makes it harder to merge all the code.

Actions to start doing

1. The team should start tasks earlier and not procrastinate at the end of the Sprint, because the tasks end of being rushed
2. The team should start writing unit and integration tests, because they let us know that everything is working properly.

Actions to keep doing

1. The team should continue to implement our tasks, even when low on time, because it's important for the team.
2. The team should continue the way we've been holding scrum meetings, as they are beneficial to the team's knowledge of the code.
3. The team should keep communicating on slack because it keeps informed on meetings and code issues.

Work Completed/Not Completed

Completed:
1. Integrate page blocking code
2. Update code to store tabspaces efficiently.
3. Change default storage to be tabspaceX where X is the count
4. Update and Integrate new UI
5. Move block page into local file
6. Add a library of landscape photos to be added as an icon

Not Completed:
1. Sort tabspace by name, most used, etc.
2. Edit existing tabspaces.
3. Delete existing tabspaces.
