SPRINT 2 REPORT

Product Name: tabspace
Team Name: team tabspace
Date: November 7, 2016

Actions to stop doing

1. The team should try more ways of estimating work tasks, such as planning poker
2. The team should stop writing code on their own branches, and work on master mostly

Actions to start doing

1. The team should try to schedule more group work sessions, since it is more productive to work together.
2. The team should start breaking tasks into smaller units, and make sure everyone is on the same page with them

Actions to keep doing

1. The team should continue to schedule group work sessions, since it is more productive to work together.
2. The team should continue all the scrum meetings, as the time they are at is good for everyone.
3.

Work Completed/Not Completed

Completed:

1. Save tabspaces as keys to the dictionary as "tabspaceX" where X is the number of the newest tabspace
2. Create a load tabspace button that opens all of the previous tabspace buttons that were created
3. Refactor the code we have, and merge it all together
4. Debug existing code to allow for editing of tabspaces
5. Build UI to handle editing tabspaces

Not Completed:

1. Sort the tabs in a tabspace alphabetically, if the user wants
2. Add a checkbox that lets the user decide if they want to close the window they're on when opening a tabspace

Work Completion Rate

Total # of user stories completed during: 2
Total # of estimated ideal work hours completed: 30 expected, 32.5 completed
Total # of days during sprint: 16 days

User stories/day: 2/16 = 0.125
Ideal work hours/day: 30/16 = 1.875

Final Burnup Chart:
